AMERICAN RED CROSS AQUATICS PROGRAM

Merle Johnson, Aquatics Director

Questions: contact merle.johnson@ndscs.edu or 701-671-2447
(NDSCS may change or cancel classes due to low enrollment.)

— Water Aerobics —

An excellent exercise improving overall fitness, tones the body, and reduces fat. Water exercise is kinder to joints as the water supports our bodies and offers more resistance for strength training. There is no need to buy special equipment or clothes. No swimming skills needed to perform water aerobics as your body remains vertical during the entire exercise program.

— Preschool with Adult —

The goal of this class is to help children (from ages 6+ months) become acquainted with the water and to teach parents how to help their children to become more comfortable in the water.

— Level 1 —

(Typically ages 4-10)

Children become comfortable with their face in the water and swimming on front and back with support. Skills worked on will be bobs, bubble blowing, floating with support, and swimming with assistance for 5 yards.

— Level 2 —

(Typically ages 4-10)

The purpose of this course is to give students success with fundamental skills. Students will practice skills such as treading water, floating and swimming 5 body lengths horizontally.

— Level 3 —

The purpose of this course is to build on the fundamentals of locomotion and safety skills learned in level 2. Students will practice skills such as jumping into deep water, diving, front crawl with rhythmic breathing for 15 yards, and elementary backstroke for 15 yards.

— Level 4 —

The purpose of this course is to develop confidence and competency in aquatic locomotion and safety skills. Students will practice skills such as diving from the side in the standing position, treading water for 2 minutes, front crawl for 25 yards using rhythmic breathing and body roll, breaststroke

for 15 yards using proper timing (pull, breathe, kick, glide), elementary backstroke for 25 yards, back crawl for 15 yards with body roll, butterfly for 15 yards and scissors kick on side for 15 yards.

— Level 5 —

The purpose of this course is to coordinate and refine key strokes learned in previous levels. The major skills in this level are tread water, front crawl for 50 yards with minimal head movement, breaststroke for 25 yards body horizontal, butterfly for 25 yards, elementary backstroke for 50 yards with arms fully extended at glide, back crawl for 25 yards with bent arm pull, and sidestroke for 25 yards with glide.

— Level 6 —

The purpose of this course is to develop proficient strokes and safety in the water. Swimmers swim longer distances and may register for four different emphasis areas within the American Red Cross program. Students will practice endurance swimming, turns, dives, and safety practices. **Participants passing level 6 are encouraged to register for NDSCS's Swim Techniques class.**

— One-on-One Lessons —

We realize not all students succeed in a group environment or may want more individualized attention. To fulfill these needs, our program offers flexible, high-quality one-on-one lessons. These lessons are by arrangement for individuals of all ages and abilities. Space is limited.

— Adult Swim Lessons (or older youth) —

Swimmers will focus on swimming and treading while becoming comfortable in the water.

(NDSCS may change or cancel classes due to low enrollment.)

Young children not potty trained must wear swim diapers.

PROGRAMS

ADULT ENRICHMENT

Community Education is here to help every adult in Breckenridge/Wahpeton and surrounding communities live the adage that *you're never too old to learn*. Whether it's 55 Alive, dog obedience training, trips, cooking, art or gardening, you're sure to find a class or learning opportunity that's just right for you.

ADULT BASIC EDUCATION CLASSES

It's not too late to learn. Give yourself the gift that will open the doors to a better way of life. Call Community Education for more information on how you can earn your GED or brush up on skills.

EARLY CHILDHOOD FAMILY EDUCATION

ECFE classes offer education, support and social experience for families with young children aged birth to kindergarten. Because intellectual, physical, social and emotional growth occurs so rapidly from birth to age five, these years are among the most important in your child's life. The ECFE Parent Outreach Education Home Visiting Program serves Wilkin County families with children aged birth to five.

EARLY CHILDHOOD SCREENING

Early Childhood Screening provides an opportunity for three year old children and their parents to participate in a health and developmental screening. Early Childhood Screening is FREE and includes the following components: height and weight, hearing and vision, speech and development, immunization record review, dental check/dental varnish, summary interview. In Minnesota, state law requires screening for all children entering public school kindergarten. Call 218-643-6822 with any questions or to schedule a screening appointment.

ECFE EXTRA PRESCHOOL

Children will enjoy social interaction and developmentally appropriate language, art, and cognitive activities in a preschool setting for children 3 to 5 years of age.

"FUN CLUB" SCHOOL AGE CHILD CARE PROGRAM

Fun Club is a place to be safe and have fun with laughter, excitement, friends and good times. Fun Club is a service for families who have children in pre-kindergarten through 6th grade at Breckenridge Public or St. Mary's School and is open from 3:00-6:00 pm. Call 218-641-4010 for more information.

YOUTH ENRICHMENT PROGRAM

YEP focuses on the development of lifelong hobbies through enriching after school activities. Third through sixth graders at Breckenridge Elementary and St. Mary's Schools are eligible to participate. Flyers are sent home during the school year.

YOUTH PROGRAMS

Our Youth Program offers lots of neat activities for students in grades K-6 — from flag football, basketball, volleyball, wrestling to track. Watch for flyers to be distributed throughout the school year.

Send your ideas and suggestions to: Wahpeton Parks & Recreation, 304 5th Street South, Wahpeton, ND 58075, call 701-642-2811 or E-mail woppark@702com.net. INCLEMENT WEATHER

Any cancellations because of the weather can be heard on KBMW Radio (1450 AM).

INSURANCE

The Wahpeton Park Board does not carry medical or accident insurance for the participants of its programs. The cost of doing so would be so high that fees for the programs would become prohibitive. We suggest that you review your family's personal health insurance plan to be sure that it provides you with sufficient coverage. We also suggest that you check with your family physician before participating in any Parks & Recreation Department programs that require physical exertion. If your physician should discover some factors that could limit you physically, please consider them when registering for programs.

MEMORIAL GIFTS

Remember the park system and recreation programs in your will. Your deferred gift can be a lasting memory by helping to build the parks & recreation system for future generations. One sentence can be inserted by your attorney, "I give, devise and bequeath to the Wahpeton Park Board the sum of _____ dollars to be used for the development and operations of _____." It will help make our city an even better place to live and your gift will be enjoyed by countless appreciative others throughout the years.

NON-DISCRIMINATION POLICY

The Wahpeton Park Board's facilities and programs are open to all qualified persons regardless of race, color, national origin, age or handicap. If anyone believes he or she has been discriminated against on the basis of race, color, national origin, age or handicap, or desires further information he or she may contact the Wahpeton Park Board office in the Wahpeton Community Center.

PAYMENT OF FEES & REFUND POLICY

Fees are to be paid before registration is over. No registration is complete until all fees are paid. Make checks payable to: Wahpeton Parks & Recreation. Participants will receive a full refund if a program is canceled due to a lack of participants, lack of facilities, lack of qualified instruction or the program has not yet officially begun. All refunds will be issued in the form of a check.

The Wahpeton Parks & Recreation Department has recreation equipment available to borrow for special events. Equipment includes Frisbee golf discs, horseshoes, badminton equipment, volleyballs, canoes, kayaks, basketballs, playground balls, fishing equipment, shuffleboard equipment, soccer balls, flags for flag football, tug-of-war ropes, softball equipment, croquet sets and more. SCHEDULING

The Wahpeton Parks & Recreation Department reserves the right to adjust schedules, if necessary, based on the availability of instructors, facilities and number enrolled in a program. If program changes are made, those registered will be notified. Many activities are limited in size and registration will be taken on a first-come, first-serve basis. Therefore, early registration is advised. You will be put on a waiting list for a later class in the event the activity or class fills. Public Notices of our activities are published in the Daily News - Parks & Recreation Column and Calendar of Events, cable TV and KBMW Radio (1450 AM).

More than a Game: Hockey develops skills on the ice that build a foundation for a lifetime. In addition to athletic prowess, hockey promotes confidence, pride, focus and responsibility. With an emphasis on fun, hockey is a game to be played and enjoyed for life.

Life-long Friendships: Starting with the bonds created in the locker room to the relationships formed on ice, hockey creates life-long friendships. This camaraderie shared on and off the ice encourages teamwork and the natural development of leadership skills.

Set Up for Success: From learning to balance school, responsibilities at home, time at the rink and playing with friends, hockey encourages kids to learn time management skills that will later serve them in all facets of life.

Hockey is Fun: The thrill of carrying the puck up the ice on a breakaway, the exhilaration of scoring your first goal or making that amazing save is possible due to the encouraging environment hockey provides to try new things and grow as a hockey player and person. **We'll see you on the ice!**
